This one-day workshop will deliver critical business ideas, distilling thousands of leading business books and the work of today's top thought leaders and consultants to provide intelligent strategies, real-world case studies and proven tools you can implement into your business the very next day.

THE ESSENTIALS OF ACCOUNTABILITY

Perhaps the most challenging issue facing many companies today is creating a culture of accountability and disciplined execution in which people make and keep their promises and deliver the expected results consistently.

This session focuses on taking the very complex and confusing topics of accountability and strategic execution and breaks them down into the most simple, clear, straightforward, and actionable ideas. Attendees of this class will leave with a very clear understanding of what they must do to create a culture of accountability and effective execution.

Key elements in this workshop include:

- The discovery of how to turn ideas into action
- An understanding of the obstacles to accountability
- Simple and straightforward tools for creating more accountability
- An examination of the cost of not executing effectively
- The nine step process for disciplined execution
- The creation of an action plan to increase accountability and disciplined execution

“You’ve earned my admiration. I can say this of very few people.”

— NESTOR SÁNCHEZ, NES INTERACTIVOS —

“I can’t tell you how many learning sessions I’ve attended at conferences over the past 20 years, but I’ve never been more inspired and driven coming out of one than yours ...”

— TODD SPAULDING, VICE PRESIDENT, CADDY —

“Your energy is a real differentiator as you bring to life clear and relevant guidance for leading.”

— BILL YANCEY, MANAGING DIRECTOR, HILLTOP SECURITIES INC. —
